Ishmael Bangura

Hi. I'm a self taught front end developer who over this past year has developed a newfound respect & appreciation for code & web development. I want to continue learning and improving my skill set so that I can be the best I can possibly be in this career. I hope web development continues providing me with a life time of new opportunities and financial stability. -- Portfolio:https://ishmael214.github.io/portfolio.io/index.html Github:https://github.com/ishmael214
